

AHDB levy rates for 2021/22

There are no changes to the levy rates from the previous year.

Higher rates for late payment will no longer be applied

**** The statutory levy for the Horticulture, Mushrooms and Potato industries remains subject to a Ministerial decision following the recent ballots. The levy rates to be charged in these sectors is being reviewed for 2021-22, and this will be completed prior to levy invoices being issued. 2021/22 will NOT be business as usual for these sectors and we will be focusing on covering the existing liabilities plus costs associated with delivering any ministerial decision, alongside dealing with any critical matters such as the Extension of Authorisation for Minor Use (EAMU) programme and emergency crop protection work.**

Sector	Levy rates 2020/21	Levy rates 2021/22
