

Fresh cow health recording sheet for block-calving herds

Farm:

Calving period

Total number of cows due to calve:

Start date:

Total number of heifers due to calve:

End date:

Notes:

Use these sheets to tally up the number of events each week, then the total for the entire week. At the end of the calving period review with your herd health advisor. Check what could be improved for next year. How did you do against your targets?
