**Extension of Authorisation Number: 1997 of 2020** 

# EXTENSION OF AUTHORISATION FOR A MINOR USE OF A PLANT PROTECTION PRODUCT

## PLANT PROTECTION PRODUCTS REGULATION (EC) No. 1107/2009

Product name: Botanigard WP

Active ingredient: 220 g / kg beauveria bassiana GHA

MAPP number: 17054

Product authorisation holder: Mycotech Europe Ltd (Registered Company no.

03592947)

Marketing company: Certis

This Extension of authorisation ends: on the final expiry date of use for the

authorised product (unless otherwise stated)

If the authorisation of the above product is withdrawn or amended before the end date above, this Extension of authorisation will end on the same date as the authorisation for the product. This Extension of authorisation will be withdrawn or amended before its end date if a decision is taken to withdraw or amend this Extension of authorisation under Regulation (EC) No 1107/2009 on any other grounds.

Extent of authorisation: United Kingdom

This extension of authorisation for minor uses applies to all UK parallel trade products issued under Article 52 of Regulation (EC) No 1107/2009 for which Botanigard WP with MAPP 17054 is the reference product.

**HSE Digital Signature** 

This and the attached Appendices 1 and 2 are signed by the Health and Safety Executive ("HSE") for and on behalf of the Secretary of State, the Welsh Ministers, the Scottish Ministers and the Department of Agriculture, Environment and Rural Affairs in Northern Ireland.

Date of issue: 1 October 2020

#### **EXPLANATORY NOTES**

- 1. This is Extension of authorisation number 1997 of 2020.
- 2. This Extension of authorisation will be published on the website of the Chemicals Regulation Division of the HSE.
- 3. Application reference number: COP 2019/02474
- 4. Persons using the product to which this Extension of authorisation applies should acquaint themselves with and observe all requirements contained in the Regulation (EC) No 1107/2009, including the duty on the holder of any Extension of authorisation to notify information on potentially dangerous effects, a contravention of which is a criminal offence under those Regulations.
- 5. Neither the efficacy nor the phytotoxicity of the product for which this Extension of authorisation has been granted has been assessed and, as such, the user bears the risk in respect of failures concerning its efficacy and phytotoxicity.

#### **ADVISORY INFORMATION**

IMPORTANT: When applying this product under the terms of this Extension of Authorisation, comply with any resistance guidance or restrictions stated on the product label.

Total reliance on one pesticide will hasten the development of resistance. Pesticides of different chemical types or alternative control measures should be included in the planned programme. Alternating with different modes of action is a recognised anti-resistance strategy.

This Extension of Authorisation relates to the use of 'Botanigard WP' (M17054) for the control of thrips and aphids on asparagus, celery and leek. Applications should be made via conventional hydraulic boom sprayers in a minimum water volume of 600 litres of water per hectare.

#### **APPENDIX 1: CONDITIONS OF EXTENSION OF AUTHORISATION**

The conditions below are obligatory. They must be complied with when the Extension of authorisation occurs. Failure to comply with the following conditions will result in the withdrawal or amendment of the Extension of authorisation under Regulation (EC) No 1107/2009 and may result in other enforcement action, including prosecution. For the purposes of this Extension of authorisation only, the conditions and/or requirements shown below supersede any corresponding conditions and/or requirements set out on the label or otherwise provided for under the product authorisation which would otherwise apply.

#### Use:

Field of use: ONLY AS AN INSECTICIDE

User: Professional

Crops/situations:	Maximum individual dose: (kg product / ha)	Maximum total dose:	Maximum number of treatments:	Latest time of application:
Protected and outdoor crops of asparagus, celery, leek	0.6	-	5 per crop	One day before harvest
Permanent protection with full enclosure crops of asparagus, celery, leek	0.94	-	25 per year	One day before harvest

#### Operator Protection:

(1) Engineering control of operator exposure must be used where reasonably practicable in addition to the following personal protective equipment:

Operators must wear suitable protective clothing (coveralls), suitable protective gloves and suitable respiratory protective equipment\*. \*Disposable filtering facepiece respirator to at least EN149 FFP3 or equivalent.

(2) However, engineering controls may replace personal protective equipment if a COSHH assessment shows that they provide an equal or higher standard of protection.

### Environmental protection:

Dangerous to bees. To protect bees and pollinating insects do not apply to crop plants when in flower. Do not use where bees are actively foraging. Do not apply when flowering weeds are present.

#### Other specific restrictions:

- (1) This product must only be applied in accordance with the terms of this extension of authorisation, the product label and/or leaflet and any additional guidance on extensions of authorisation.
- (2) Applications must not be made by broadcast airassisted equipment, unless specifically permitted on the product label.
- (3) For permanent protection: treatment must only be made under 'permanent protection' situations which provide full enclosure (including continuous top and side barriers down to below ground level) and which are present and maintained over a number of years.
- (4) For indoor uses: Reasonable precautions must be taken to prevent access to birds, wild mammals and honey bees to treated crops.
- (5) To minimise airborne environmental exposure, vent, doors and other openings must be closed during and after application until the applied product has fully settled.
- (6) For permanent protection: Soil used to grow treated plants must be placed into a skip for commercial disposal via landfill and must not be disposed of by spreading over outside fields.
- (7) A minimum period of 5 days must elapse between applications

# APPENDIX 2: GENERAL CONDITIONS FOR AN EXTENSION OF AUTHORISATION

Failure to comply with the following conditions will result in the withdrawal or amendment of the Extension of authorisation under Regulation (EC) No 1107/2009 and may result in other enforcement action, including prosecution.

#### Adverse effects:

The authorisation holder must immediately notify the Secretary of State, the Scottish Ministers and the Department of Agriculture, Environment and Rural Affairs in Northern Ireland (care of the Health and Safety Executive), if they have any new information on the potentially adverse effects of the authorised product, or of residues of an active substance in that product when used in accordance with the conditions of this Extension of authorisation. For those products authorised under Regulation (EC) No 1107/2009 authorisation holders must also tell the other relevant competent authorities of the EC Member States (a list of which is available from the Health and Safety Executive) and the EC Commission. Failure to comply with this requirement is an offence.

#### **Provision of information:**

The authorisation holder must comply with all requests for information required by, or on behalf of, the Secretary of State, the Scottish Ministers or the Department of Agriculture, Environment and Rural Affairs in Northern Ireland in accordance with Regulation (EC) No 1107/2009.
