

**EXTENSION OF AUTHORISATION FOR A MINOR USE OF A PLANT  
PROTECTION PRODUCT**

**PLANT PROTECTION PRODUCTS REGULATION (EC) No 1107/2009**

Extent of authorisation: Great Britain and Northern Ireland

Product name: Toledo

Active ingredient: 430 g / l tebuconazole

MAPP number: 18298

Product authorisation holder: Rotam Agrochemical Europe Limited (Registered  
Company no. 4853930)

Marketing company: Rotam Agrochemical Europe Limited

This Extension of authorisation ends: on the final expiry date of use for the  
authorised product

If the authorisation of the above product is withdrawn or amended, this Extension of  
authorisation will end on the same date as the authorisation for the product.

This Extension of authorisation will be withdrawn or amended before its end date if  
any of the active substances contained in the product are withdrawn from the  
Approvals Register or list of approved active substances included in Regulation (EU)  
No 540/2011, or if a decision is taken to withdraw or amend this Extension of  
authorisation under Regulation (EC) No 1107/2009 on any other grounds.

The circumstances in which this Extension of authorisation will be withdrawn or  
amended are set out in Regulation (EC) No 1107/2009.

This extension of authorisation for minor uses applies to all authorised parallel trade  
products issued under Article 52 of Regulation (EC) No 1107/2009 for which Toledo  
with MAPP 18298 is the reference product.

## HSE Digital Signature

This and the attached Appendices 1 and 2 are signed by the Health and Safety Executive for and on behalf of the Secretary of State, the Welsh Ministers, the Scottish Ministers and the Department of Agriculture, Environment and Rural Affairs in Northern Ireland.

Date of issue: 8 October 2021

### **EXPLANATORY NOTES**

1. This is Extension of authorisation number 2215 of 2021.
2. This Extension of authorisation will be published on HSE's website.
3. Application reference number: COP 2020/00243
4. Persons using the product to which this Extension of authorisation applies should acquaint themselves with and observe all requirements contained in the Regulation (EC) No 1107/2009, including the duty on the holder of any Extension of authorisation to notify information on potentially dangerous effects, a contravention of which is a criminal offence under those Regulations.
5. Neither the efficacy nor the phytotoxicity of the product for which this Extension of authorisation has been granted has been assessed and, as such, the user bears the risk in respect of failures concerning its efficacy and phytotoxicity.
6. In this notice Regulation (EC) No 1107/2009 means:  
In relation to Great Britain, Regulation (EC) No 1107/2009 as it has effect in Great Britain.  
In relation to Northern Ireland, Regulation (EC) No 1107/2009 as it has effect by virtue of the Protocol on Ireland/Northern Ireland in the EU withdrawal agreement.
7. In this notice Regulation (EU) No 540/2011 means:  
In relation to Northern Ireland, Regulation (EU) No 540/2011 as it has effect by virtue of the Protocol on Ireland/Northern Ireland in the EU withdrawal agreement.

## ADVISORY INFORMATION

This Extension of authorisation relates to the use of 'Toledo' (M18298) for use on bulb onion sets, bulb onion, garlic, shallot, salad onion and chive for the control of white rot. When used outdoor, the product should be applied via conventional hydraulic ground spraying equipment (including air assisted hydraulic sprayers) in water volumes of 200 litres per hectare. When used on bulb onion sets, applications should be made with foam application equipment. The maximum dose of application of this product when used outdoor is 0.6 litres per hectare per year, limited to one year in every three. Doses may be split over the year of application up to the total dose of 0.6 litres per hectare.

**IMPORTANT:** When applying this product under the terms of this Extension of authorisation, comply with any resistance guidance or restrictions stated on the product label.

Total reliance on one pesticide will hasten the development of resistance. Pesticides of different chemical types or alternative control measures should be included in the planned programme. Alternating with different modes of action is a recognised anti-resistance strategy.

TOLEDO contains a triazole fungicide that belongs to the group of Demethylation Inhibitors (DMI). To avoid resistance do not apply repeated applications of DMI fungicides alone on the same crop against the same disease. In such situation use an appropriate tank mixture or alternate with another fungicide with a different mode of action. Where resistance occurs TOLEDO may not give adequate disease control. Consult the latest advice from FRAG UK and FRAC regarding disease resistance strategies.

## APPENDIX 1: CONDITIONS OF EXTENSION OF AUTHORISATION

The conditions below are obligatory. They must be complied with when the Extension of authorisation occurs. Failure to comply with the following conditions will result in the withdrawal or amendment of the Extension of authorisation under Regulation (EC) No 1107/2009 and may result in other enforcement action, including prosecution. For the purposes of this Extension of authorisation only, the conditions and/or requirements shown below supersede any corresponding conditions and/or requirements set out on the label or otherwise provided for under the product authorisation **which would otherwise apply**.

### Use:

Field of use: **ONLY AS A FUNGICIDE**

User: Professional

Crops/situations:	Maximum individual dose: (litres product / ha)	Maximum total dose: (litres product / ha / year)	Maximum number of treatments:	Latest time of application:
Outdoor bulb onion, outdoor chives, garlic, outdoor salad onion, outdoor shallot	0.6 See 'Other Specific Restrictions' 11	0.6 See 'Other Specific Restrictions' 9 and 10	-	21 days before harvest
Outdoor bulb onion sets	See 'Other Specific Restrictions' 2 to 8	-	1	Before planting outdoor

The following Aquatic Buffer Zones must be observed:

Crops/situations:	Aquatic buffer zone distance (metres):	Comment:
Bulb onion, bulb onion sets, chives, garlic, salad onion, shallot	5	see Environmental Protection Phrase 1

Environmental protection:

(1) Crops/situations with 5m buffer zone:

Since there is a risk to aquatic life from use, users not applying the statutory buffer zone must either themselves carry out or ensure that someone else has carried out a Local Environment Risk Assessment for Pesticides (LERAP) on their behalf before each spraying operation from a horizontal boom sprayer. Users must not allow direct spray from horizontal boom sprayers to fall within 5m of the top of the bank of any static or flowing waterbody or within 1m of a ditch which is dry at the time of application (these distances to be measured as set out in the guidance documents available from HSE Chemical Regulation Division's website and any amendments that are made to it) unless:

(a) The LERAP indicates that a narrower buffer zone will be sufficient; and

(b) Any measures indicated by the LERAP as justifying the narrower buffer zone are complied with in full and in accordance with any conditions applicable to them.

Spray must be aimed away from water.

- (2) The results of the LERAP must be recorded in written form and must be available for a period of three years for inspection to any person entitled to exercise enforcement powers under or in connection with the Plant Protection Products Regulations 2011 or the Plant Protection Products (Sustainable Use) Regulations 2012. (An electronic record will satisfy the requirement for a written record, providing it is similarly available for inspection and can be copied).
- (3) Detailed guidance on LERAPs and how to conduct a LERAP are contained in the guidance documents available from HSE Chemicals Regulation Division's website. All LERAPs must be carried out in accordance with this Guidance and any amendments that are made to it.

Other specific restrictions:

- (1) This product must only be applied in accordance with the terms of this extension of authorisation, the product label and/or leaflet and any additional guidance on extensions of authorisation.

- (2) This product must not be applied via hand-held equipment.
- (3) A maximum concentration of 0.29% 'Toledo' in water must not be exceeded when applying to bulb onion sets
- (4) Applications to onion sets must be made indoor with foam application equipment.
- (5) This product must not be applied by hand-held equipment.
- (6) Treated sets must not be used for food or feed.
- (7) Sacks containing treated sets must not be re-used for food or feed.
- (8) Sacks containing treated sets should be labelled:  
  
DO NOT HANDLE sets unnecessarily.  
  
NOT TO BE USED as food or feed.  
  
DO NOT RE-USE SACK for food or feed.  
  
HARMFUL TO GAME AND WILDLIFE. Bury spillages.  
  
WASH HANDS AND EXPOSED SKIN before meals and after work.  
  
DO NOT APPLY FROM THE AIR.  
  
HARMFUL TO FISH OR OTHER AQUATIC LIFE.  
Do not contaminate surface waters or ditches with chemical or used container.
- (9) Foliar applications of tebuconazole must not be applied to bulb onion sets treated with tebuconazole via foam application equipment.
- (10) Use is restricted to a total application of 258 g tebuconazole / ha (equivalent to 0.6 l/ha 'Toledo') in any one year and to one year in every three.
- (11) In the year of application a maximum total dose of 0.6 l / ha may be applied as a split dose with a minimum interval of 21 days between applications.
- (12) Application must not be made before the leaf bases begin to thicken (BBCH40).

## **APPENDIX 2: GENERAL CONDITIONS FOR AN EXTENSION OF AUTHORISATION**

Failure to comply with the following conditions will result in the withdrawal or amendment of the Extension of authorisation under Regulation (EC) No 1107/2009 and may result in other enforcement action, including prosecution.

### **Adverse effects:**

The authorisation holder must immediately notify the Secretary of State, the Welsh Ministers, the Scottish Ministers and the Department of Agriculture, Environment and Rural Affairs in Northern Ireland (care of the Health and Safety Executive), if they have any new information on the potentially adverse effects of the authorised product, or of residues of an active substance in that product when used in accordance with the conditions of this authorisation. For those products authorised under Regulation (EC) No 1107/2009 as it has effect by virtue of the Protocol on Ireland/Northern Ireland in the EU withdrawal agreement, authorisation holders must also tell the other relevant competent authorities of the EC Member States (a list of which is available from the Health and Safety Executive) and the EC Commission. Failure to comply with this requirement is an offence.

### **Provision of information:**

The authorisation holder must comply with all requests for information required by, or on behalf of, the Secretary of State, the Welsh Ministers, the Scottish Ministers or the Department of Agriculture, Environment and Rural Affairs in Northern Ireland in accordance with Regulation (EC) No 1107/2009.
