

**EXTENSION OF AUTHORISATION FOR A MINOR USE OF A PLANT  
PROTECTION PRODUCT**

**PLANT PROTECTION PRODUCTS REGULATION (EC) No 1107/2009**

Extent of authorisation: Great Britain and Northern Ireland

Product name: Centurion Max

Active ingredient: 120 g / l clethodim

MAPP number: 17911

Product authorisation holder: Arysta LifeScience SAS (Registered Company no.  
FR41330129842)

Marketing company: Arysta LifeScience Great Britain Ltd

This Extension of authorisation ends: on the final expiry date of use for the  
authorised product

If the authorisation of the above product is withdrawn or amended, this Extension of  
authorisation will end on the same date as the authorisation for the product.

This Extension of authorisation will be withdrawn or amended before its end date if  
any of the active substances contained in the product are withdrawn from the  
Approvals Register or list of approved active substances included in Regulation (EU)  
No 540/2011, or if a decision is taken to withdraw or amend this Extension of  
authorisation under Regulation (EC) No 1107/2009 on any other grounds.

The circumstances in which this Extension of authorisation will be withdrawn or  
amended are set out in Regulation (EC) No 1107/2009.

This extension of authorisation for minor uses applies to all authorised parallel trade  
products issued under Article 52 of Regulation (EC) No 1107/2009 for which  
Centurion Max with MAPP 17911 is the reference product.

HSE Digital Signature

This and the attached Appendices 1 and 2 are signed by the Health and Safety Executive for and on behalf of the Secretary of State, the Welsh Ministers, the Scottish Ministers and the Department of Agriculture, Environment and Rural Affairs in Northern Ireland.

Date of issue: 19 May 2021

## **EXPLANATORY NOTES**

1. This is Extension of authorisation number 1032 of 2021.
2. This Extension of authorisation will be published on HSE's website.
3. Application reference number: COP 2020/00978
4. Persons using the product to which this Extension of authorisation applies should acquaint themselves with and observe all requirements contained in the Regulation (EC) No 1107/2009, including the duty on the holder of any Extension of authorisation to notify information on potentially dangerous effects, a contravention of which is a criminal offence under those Regulations.
5. Neither the efficacy nor the phytotoxicity of the product for which this Extension of authorisation has been granted has been assessed and, as such, the user bears the risk in respect of failures concerning its efficacy and phytotoxicity.
6. In this notice Regulation (EC) No 1107/2009 means:  
In relation to Great Britain, Regulation (EC) No 1107/2009 as it has effect in Great Britain.  
In relation to Northern Ireland, Regulation (EC) No 1107/2009 as it has effect by virtue of the Protocol on Ireland/Northern Ireland in the EU withdrawal agreement.
7. In this notice Regulation (EU) No 540/2011 means:  
In relation to Northern Ireland, Regulation (EU) No 540/2011 as it has effect by virtue of the Protocol on Ireland/Northern Ireland in the EU withdrawal agreement.

## **ADVISORY INFORMATION**

**IMPORTANT:** When applying this product under the terms of this Extension of Authorisation, comply with any resistance guidance or restrictions stated on the product label.

Total reliance on one pesticide will hasten the development of resistance. Pesticides of different chemical types or alternative control measures should be included in the planned programme. Alternating with different modes of action is a recognised anti-resistance strategy.

Strains of some annual grasses, e.g. black-grass, wild-oats, and Italian rye-grass, have developed resistance to herbicides which may lead to poor control. A strategy for preventing and managing such resistance should be adopted. Guidelines have been produced by the Weed Resistance Action Group and copies are available from the HGCA, CPA, your distributor, crop adviser or product manufacturer.

This product contains clethodim which is an ACCase inhibitor, also classified by the Herbicide Resistance Action Committee as "Group A".

Use only as part of a resistance management strategy that includes cultural methods of control and does not use ACCase inhibitors as the sole chemical method of grass-weed control.

Applying a second product containing an ACCase inhibitor to a crop will increase the risk of resistance development; only use a second ACCase inhibitor to control different weeds at a different timing.

This Extension of Authorisation relates to the use of 'Centurion Max' (M17911) as a herbicide for the control of grasses, Black grass, Annual meadow grass, couch grass and Wild oats on fresh herbs and herbal infusions. Applications are to be made via conventional horizontal boom sprayers in a minimum water volume of 200 litres per hectare. Only one application per crop is to be made and the latest time of application is 28 days before harvest.

Extreme care must be taken to avoid spray drift onto non-crop plants outside of the target area.

## APPENDIX 1: CONDITIONS OF EXTENSION OF AUTHORISATION

The conditions below are obligatory. They must be complied with when the Extension of authorisation occurs. Failure to comply with the following conditions will result in the withdrawal or amendment of the Extension of authorisation under Regulation (EC) No 1107/2009 and may result in other enforcement action, including prosecution. For the purposes of this Extension of authorisation only, the conditions and/or requirements shown below supersede any corresponding conditions and/or requirements set out on the label or otherwise provided for under the product authorisation **which would otherwise apply**.

### Use:

Field of use: **ONLY AS A HERBICIDE**

User: Professional

Crops/situations:	Maximum individual dose: (litres product / ha)	Maximum total dose:	Maximum number of treatments: (per crop)	Latest time of application:
Angelica, basil, caraway leaves, coriander, edible flowers, lovage leaves, salad burnet, sweet cicely	0.8 (when weeds are at the stage of 2-5 true leaves)	-	1 (BBCH 11 - 29)	When 9 or more stems are visible
Angelica, basil, caraway leaves, coriander, edible flowers, lovage leaves, salad burnet, sweet cicely	1.5 (when weeds are at the stage of 4-6 true leaves)	-	1 (BBCH 11 - 29)	When 9 or more stems are visible

### Operator Protection:

- (1) Engineering control of operator exposure must be used where reasonably practicable in addition to the following personal protective equipment:

Operators must wear suitable protective gloves when handling the concentrate or handling contaminated surfaces.

- (2) However, engineering controls may replace personal protective equipment if a COSHH assessment shows that they provide an equal or higher standard of protection.

Other specific restrictions:

- (1) This product must only be applied in accordance with the terms of this extension of authorisation, the product label and/or leaflet and any additional guidance on extensions of authorisation.
- (2) To avoid the build-up of resistance, do not apply products containing an ACCase inhibitor herbicide more than twice to any crop. In addition, do not use this product in mixture or sequence with any other product containing clethodim.

## **APPENDIX 2: GENERAL CONDITIONS FOR AN EXTENSION OF AUTHORISATION**

Failure to comply with the following conditions will result in the withdrawal or amendment of the Extension of authorisation under Regulation (EC) No 1107/2009 and may result in other enforcement action, including prosecution.

### **Adverse effects:**

The authorisation holder must immediately notify the Secretary of State, the Welsh Ministers, the Scottish Ministers and the Department of Agriculture, Environment and Rural Affairs in Northern Ireland (care of the Health and Safety Executive), if they have any new information on the potentially adverse effects of the authorised product, or of residues of an active substance in that product when used in accordance with the conditions of this authorisation. For those products authorised under Regulation (EC) No 1107/2009 as it has effect by virtue of the Protocol on Ireland/Northern Ireland in the EU withdrawal agreement, authorisation holders must also tell the other relevant competent authorities of the EC Member States (a list of which is available from the Health and Safety Executive) and the EC Commission. Failure to comply with this requirement is an offence.

### **Provision of information:**

The authorisation holder must comply with all requests for information required by, or on behalf of, the Secretary of State, the Welsh Ministers, the Scottish Ministers or the Department of Agriculture, Environment and Rural Affairs in Northern Ireland in accordance with Regulation (EC) No 1107/2009.
