Agostino	WT93	91	94	94	91	90	102
SU Liborious	WT114	99	102	100	96	95	123
Temuco	WT115	99	98	97	96	99	100
Belcanto	WT117	96	95	97	92	94	99
Presley	WT120	95	92	89	90	96	92
Tribeca	WT9056	91	69	71	73	-	-
Cyrkon	WT9096	94	90	93	87	88	92
Tender PZO	WT9134	94	98	103	107	94	83
Toro	WT9136	93	89	92	91	93	78

(C) = yield control

Not all varieties on the AHDB Recommended List are presented, since the focus is to test new varieties. Yields for well-established varieties on the AHDB Recommended Lists can be accessed via ahdb.org.uk/rl

The AHDB Recommended Lists are managed by a project consortium of AHDB Cereals & Oilseeds, BSPB, UKFM and MAGB. AHDB Cereals & Oilseeds is a division of the Agriculture and Horticulture Development Board.

Harvest results from an individual trial sites should not be used to make conclusions on individual variety performance. Recommended lists are based on information taken from trials across the UK over several seasons. As more information becomes available from the 2021 harvest, this will contribute to the over trials averages, which comprise 4 years for oilseeds and 5 years for cereals. These values provide better information for comparison between varieties. When more results are available, our validation procedures will examine cross site differences further.
