GB milk production

Calving patterns

Spring block: 80% of registrations occur within 4 months from 1 Feb to 31 May
Autumn block: 80% of registrations occur within 4 months from 1 Aug to 30 Nov or 1 Sep to 31 Dec
Other block: 80% of registrations occur within 4 months other than defined in spring or autumn block
Dual block: 90% of registrations occur within the spring block or autumn block windows defined above
AYR: Registrations are spread relatively evenly throughout the year, but that can be based on a 10 to 12-month calving system
Non-defined: covers any farm not falling into one of the other categories
