

EU and UK dressing specifications

Carcases dressed to EU spec exclude flare fat, kidney and diaphragm. UK spec is inclusive of flare fat, kidney and diaphragm.

To convert UK dressing to EU dressing specification the following weight coefficients apply:

Weight bands	Coefficient
Cold weight up to 56kg	Deduct 0.7kg
Cold weight from 56.5 to 74.5kg	Deduct 1.1kg
Cold weight of 75kg and over	Deduct 1.6kg

To convert EU dressing to UK dressing specification the following weight coefficients apply:

Weight bands	Coefficient
Cold weight up to 56kg	Add 0.7kg
Cold weight from 56.5 to 74.5kg	Add 1.1kg
Cold weight of 75kg and over	Add 1.6kg

Co-efficients are applied in addition to the 2% hot weight adjustment.
