Total‡		121,070	112,040	116,830	122,780	118,100	91,250	25,940	1,760	118,950

† = Unable to publish figure without risk of disclosure of data relating to individual farms. This is when the data relates to fewer than 3 growers. Where the estimate for a variety in a region has been removed, the region with the second largest area has also been removed due to the GB total figure also being presented.

‡ = Totals may not tally exactly due to rounding.

- = No area planted.
