1. Registration & Logging in

1.1. Go to <https://www.medicinehub.org.uk> and click on the 'Register' button in the top right corner:

1.2. Click the register button and select 'Vet'

The screenshot shows the 'MEDICINE+HUB Register' form. At the top, it says 'I am a:' followed by three radio button options: 'Farmer' (selected), 'Vet', and 'Other (eg. agent, adviser, farm staff)'. Below this are several input fields: 'Email address', 'Confirm email address', 'First name', 'Last name' (highlighted in blue), 'Password' (with a help icon), 'Confirm password' (with a help icon), 'Business/organisation name', 'Address' (with a small map icon), 'Postcode', 'Mobile number', and 'Landline number'. At the bottom right is a dark blue button with a white plus sign and the text 'Register'.

1.3. Once your registration has been **confirmed via email** you can sign in

1.4. The first time you log in you will receive an email with a one-time passcode

- If you are both a farmer and a vet, you should register for 2 separate accounts using different email addresses

2. Enterprises

2.1. Once a business has assigned you as their veterinary practice, they will appear within your 'Enterprise' page list

Add & Manage EnterprisesPurchased Medicines List

Enterprises

Please select an enterprise from the list below or search for it by business name, enterprise name, postcode, holding number, CRN or herd/flock number.

Show column(s): ☒ Postcode ☒ Holding Number ☒ Herd/flock number ☒ CTS data from

You can view client enterprises once you have been given relevant permission to their account.

2.2. When a business assigns a vet practice there are 3 permission options they can **select**

- View data
- Edit data
- Submit data

2.3. You can **see** what level of permission you have been assigned by **clicking** on 'Third Party Permissions'

Manage third-party permissions

2.4. Select the enterprise you want to **view**, **edit** or **submit** data for

3. Data Entry

3.1. Medicine Hub requires two types of information to produce reports

- Medicine usage (incl. product name and amount)
- Number of animals within the enterprise

3.2. Select the most appropriate data entry method for the enterprise

There are several ways to submit data to Medicine Hub. [Help me choose.](#)

☐ **Total medicine use**
Select this option if you only want to provide total medicine use data (including antibiotic use).

☐ **Full medicine book**
Select this option if you would like to use the Medicine Hub as a full medicine book for recording individual and group treatments.

☐ **Allocate purchased medicines**
Select this option if you would like to submit returns for all of your enterprises at once by allocating your purchased medicines.

☐ **Medicine Hub Excel templates**
Select this option to download a Medicine Hub Excel template to your computer which can be used offline and to upload completed Excel spreadsheets.

☐ **Upload csv files from software or Nottingham AMU calculator**
Select this option if you would like to import data from an external source, e.g. herd/flock software.

4. Individual Enterprise Reports

4.1. Antibiotic use report shows the total amount of antibiotics used per kilogram of animal live weight within the

enterprise (mg/kg)

4.2. Medicine use report shows the total amount of all medicines used within the enterprise

4.3. Click on 'View report', this will direct you to your clients account view and present the report
