

EHC Online – Rollout from Feb 2020 Onwards

What's new?

The way that you submit an application for an Export Health Certificate (EHC) is changing. The government have launched a new EHC Online system to speed up the certification process. The new service is called EHC Online.

Export Health Certificate Online allows exporters and certifiers to apply and certify EHCs remotely. This system will eventually replace the current manual PDF process for most export commodities.

What is EHC Online?

- A new digital online application service/system for Export Health Certificates (EHC) has been developed and will replace the current manual PDF service/system which requires forms to be downloaded, filled in manually and sent to APHA via email.
- This service known as EHC Online is currently being released in phases.
- EHC Online can be accessed via gov.uk and enables exporters to complete and submit their EHC via gov.uk.
- EHC Online allows exporters to fully apply, complete and submit their EHC online
- The EHC can be checked and approved by a certifying officer (Environmental Health Officer (EHO) or an Official Veterinarian (OV)) using EHC Online.
- EHC Online will digitalise the export health certificate process for exporters and certifiers.
- EHC Online has/is being developed jointly by DEFRA and APHA.

What's next?

- Following rigorous testing and feedback, the service/system is ready to be rolled out and we
 are making more export health certificates available from February 2020.
- These will incorporate export health certificates from twelve commodity groups. These include: Meat, Dairy, Fish, Poultry, Pets, Livestock, Pharmaceuticals, Animal Feed, Equine, Germplasm, Hides and Skins
- We will be continuing to make additional export health certificates available on EHC Online during the coming months, with our aim being to have over 100 available for online

- submission by summer 2020, across all key export commodity groups. We will keep you updated on the online rollout schedule at regular intervals.
- Throughout February and March, several events and webinars have been arranged as an
 opportunity to provide exporters and certifiers with a demonstration of how EHC Online
 works, the features, benefits and ask any questions they may have.
- Exporters and certifiers are being invited to register for the online service/system (from February 2020) in a phased way.

Rollout of Certificates

Sector	Certificate	Title	Status
	Number		
Meat	8021	Cooked Pig Meat Imported from an	Currently available
		Approved Country that has	for use
		undergone further preparation in GB	
		to Australia
